

Inaugural Expedition for the Earth 2013

The Steele Subaru Expedition for the Earth 2013 was a huge success!

Between February 1st-9th, 2013 thirteen Nova Scotians set forth to trek through the Torres del Paine National Park in Patagonia, Chile.

These adventurous and community-minded souls from across the province completed the Nature Trust’s inaugural Steele Subaru Expedition for the Earth raising critical funds and awareness for land conservation in Nova Scotia.

Our team of intrepid trekkers not only took part in a trip of a lifetime, but they also exceeded our fundraising goal of \$50,000, collecting over \$55,000 in donations for the Nature Trust. With the generous sponsorship of Steele Subaru, the grand total raised was over \$70,000.

Subaru Canada president Shiro Ohta and Steele Group owner Rob Steele
